Limited Product Warranty Statement - Products and Services

SOLARIA PowerXT® MODULES

This Limited Product Warranty Statement covers the Solaria products (“Products”) and installation services (“Services”) purchased by you, or a successor owner of the Products, at the site of the original installation (“Customer”). Applicable Products are defined as Solaria solar modules developed for the residential market (PowerXT-xxxR and PowerXT-xxxR-AC) or commercial market (PowerXT-xxxC) where “xxx” is the power rating of the module.

1. LIMITED PRODUCT WARRANTY:

(a) This Limited Product Warranty constitutes the Customer’s agreement with Solaria and will apply to your Accepted Order in accordance with the Solaria Terms and Conditions of Sale (Terms). The benefits provided by this Limited Product Warranty are in addition to any consumer guarantees and other rights and remedies prescribed by the Australian Consumer Law and any other applicable laws and regulations. Solaria will cover reasonable delivery costs of any replacement Products or parts sent to customer.

(b) Solaria’s Products and Services come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

(c) In addition to the above listed rights and remedies under the Australian Consumer Law, Solaria provides customers with the following warranty.

(d) Solaria warrants that for a period of 25 years from the date of shipment as noted on the Accepted Order (Defective Product or Part Warranty Period), the Products will be free from defects in material and workmanship, under normal conditions and when used in accordance with its documentation and subject to the Warranty Exclusions. If during the Warranty Period, a defect is confirmed in relation to a product or part in accordance with Section 2 below (Defective Products), Solaria will, at its sole obligation and Customer’s exclusive remedy, repair or replace the warranted Product or parts at no cost to the customer. Defective Products or parts may be replaced with either new or factory refurbished or remanufactured Products or parts.

(e) Solaria further warrants that for a period of 25 years from the date of shipment as noted on the Accepted Order (Loss of DC Power Warranty Period), the loss of DC power output relating to the initial guaranteed power which is defined as Peak Power Watts Pmax (Wp) plus Peak Power Watts Pmax (Wp) multiplied by the lower limit of the Power Output Tolerance Pmax (%)—as specified in the relevant Product Data Sheet and measured at Standard Test Conditions (STC) for the Product(s) shall not exceed:

• 2.0% in the first year, thereafter 0.5% per year, ending with 86.0% in the 25th year after the date of shipment.

• For AC Modules: The DC power output of the module is determined prior to the AC unit input.
In during the Limited Product Warranty Period, the DC power output of the Product substantially deviates from the levels specified above, as a result of a Product defect that is confirmed in accordance with Section 2 below, Solaria will, as its sole obligation, elect to either:

1. repair or replace the warranted Product or parts thereof, or
2. issue a credit to Customer equal to the depreciated value of the Product (using 25-year life) attributable to the deficient power output.

In the event of a Solaria product used in a large field – to be defined as larger than 500 panels unless otherwise agreed – the average power of an array of panels will be used to establish whether an individual panel must be replaced or credit given. For example, if the average power value of an array is 94% after 10 years of operation but an individual panel is at 90%, the array power would be deemed acceptable and the individual panel in question would be replaced or credit given solely at Solaria’s discretion.

In the event a Product fails to meet the Limited Product Warranty as detailed in Section 1, Solaria, at its sole discretion, may reimburse all or a portion of the service cost which results directly from the removal or re-installation of the defective Product(s).
